

Logging onto The Rose School Google Classroom at home A Guide for Parents and Carers

On any device firstly open a Google search page and click on the 'Sign In' button at the top right hand corner

You will then see this sign in box

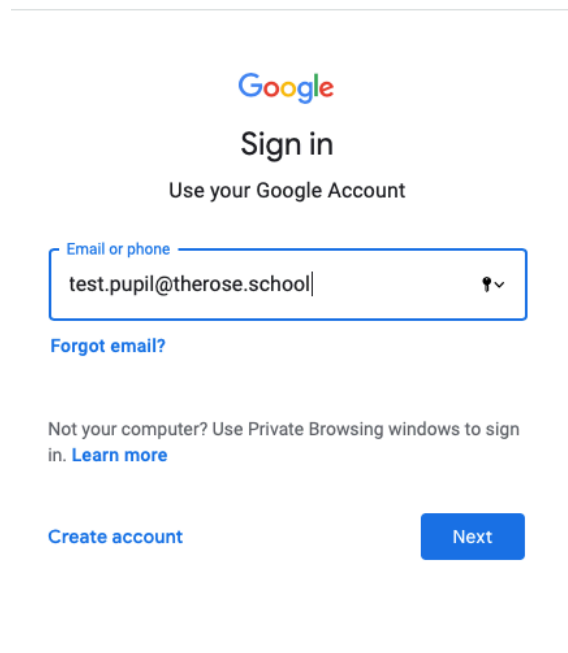

Enter the pupils login as follows:-

forename.surname@therose.school

For example:-

joe.bloggs@therose.school

(All letters are lower case)

Google

Sign in

Use your Google Account

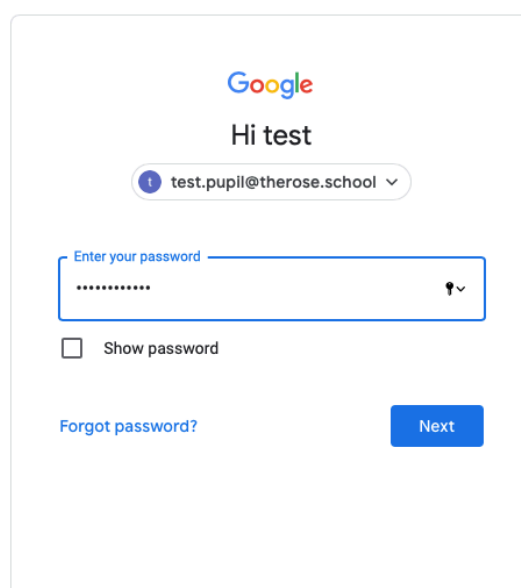

Email or phone

[Forgot email?](#)

Not your computer? Use Private Browsing windows to sign in. [Learn more](#)

[Create account](#) [Next](#)

Click the 'Next' button to take you to the password box

Google

Hi test

Enter your password

Show password

[Forgot password?](#) [Next](#)

Enter the pupils password.
All the passwords for pupils follow the same format:-

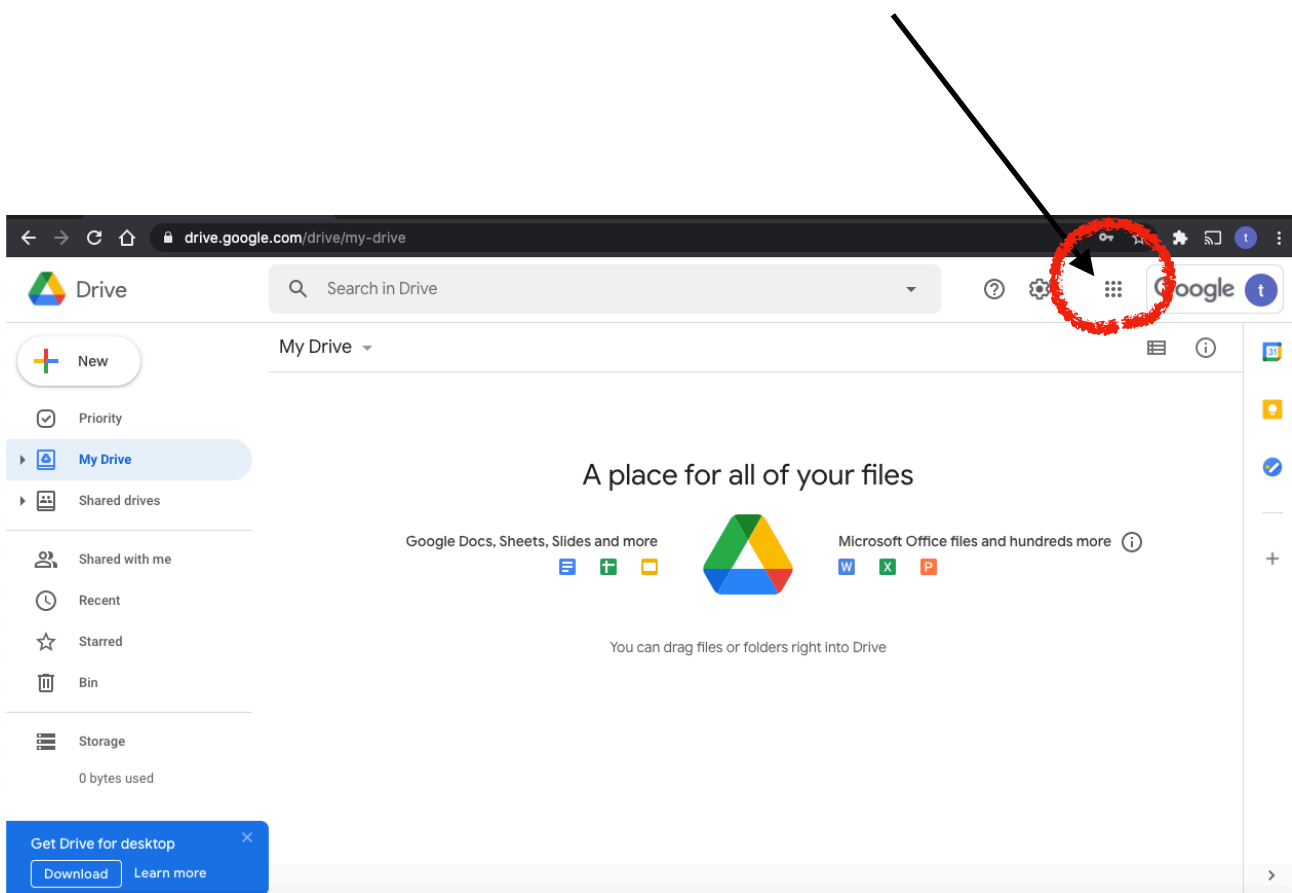

Password2019!

All passwords start with a capital letter and have 2019! at the end (the exclamation mark is important)

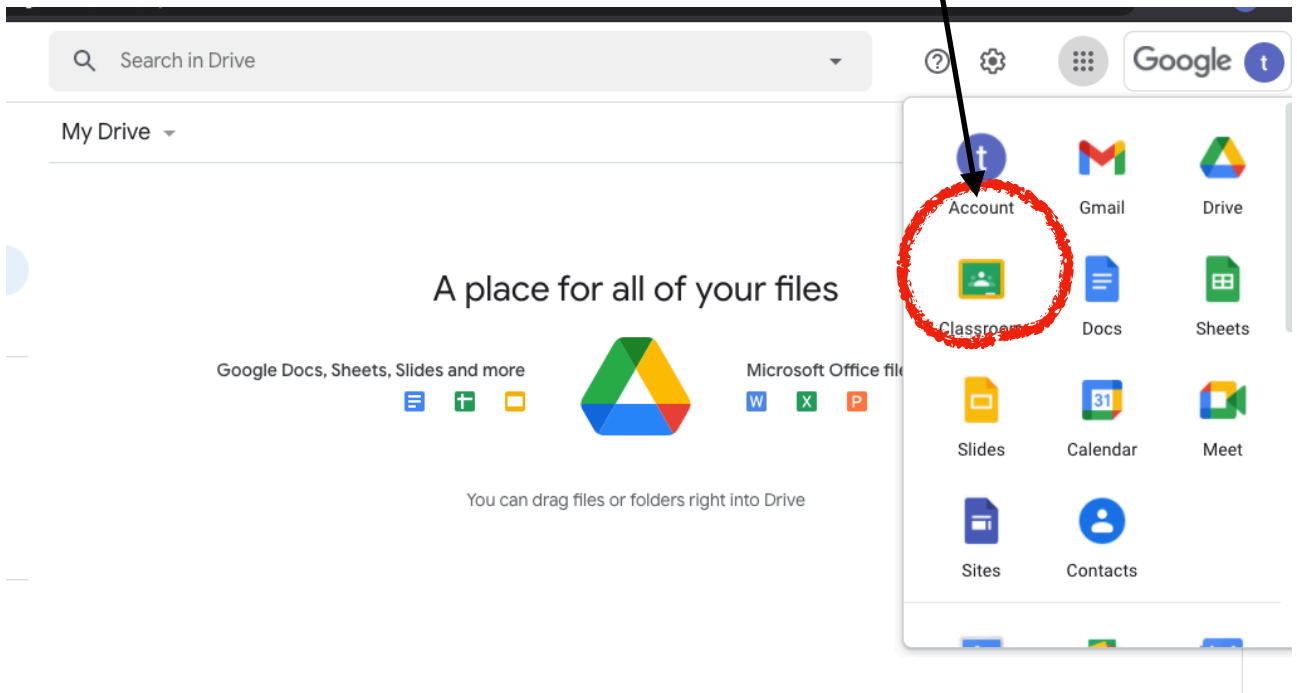

Your child should know their password. If not contact their form teacher, school or me at julian.ramsden@therose.school

When you have entered the password click 'Next' again and you will get onto their area.

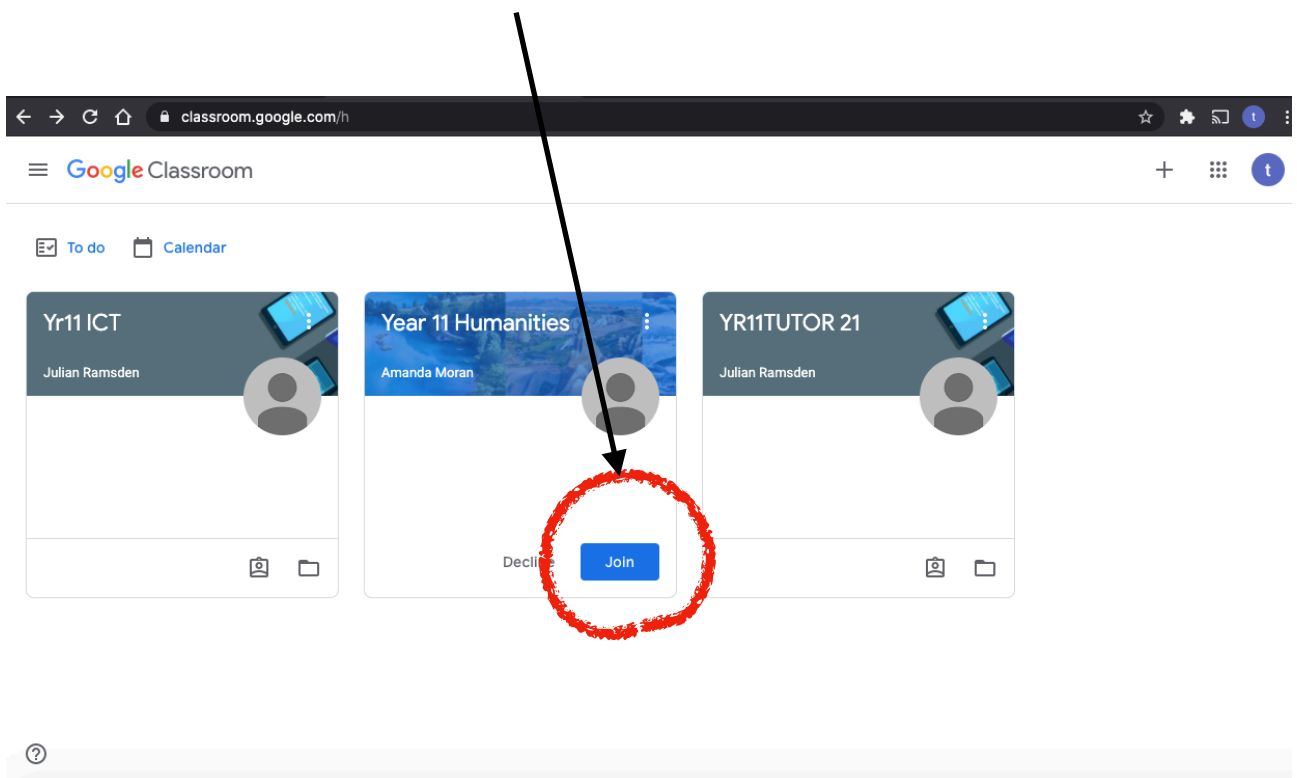

When you get there you should see a page like this. Click the 9 dots

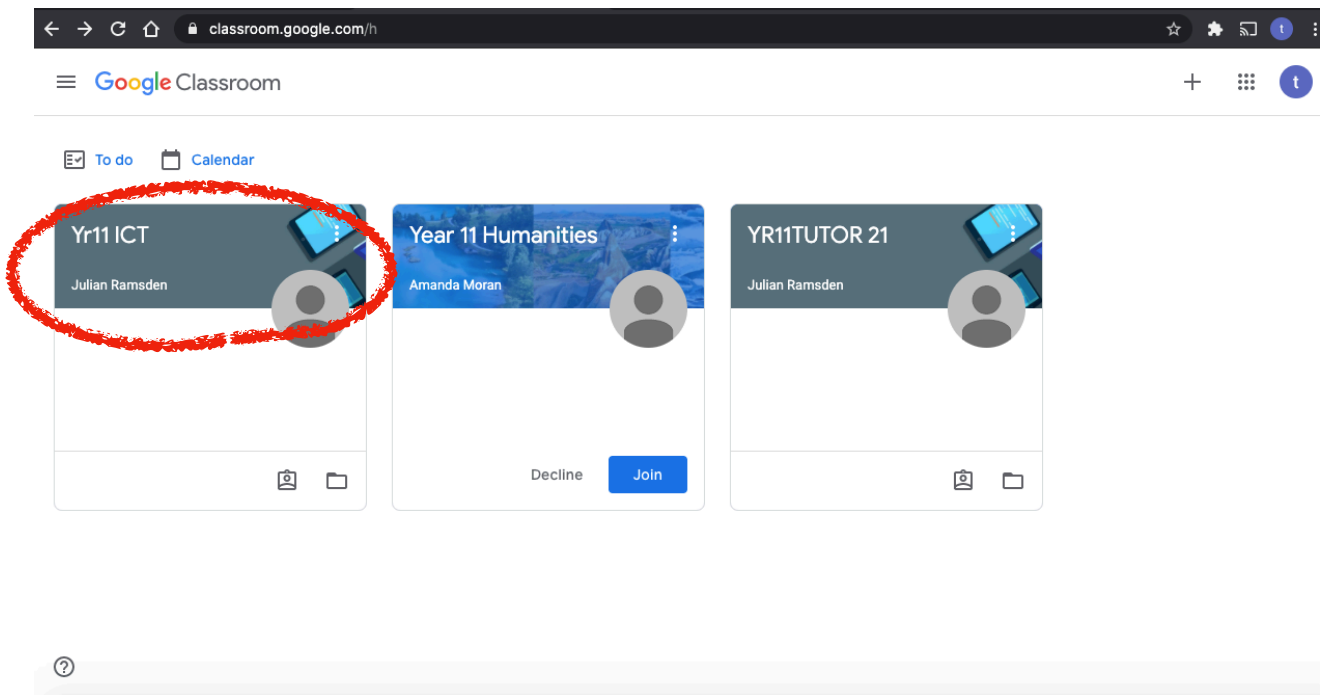

You should then see this drop down. Click the classroom icon

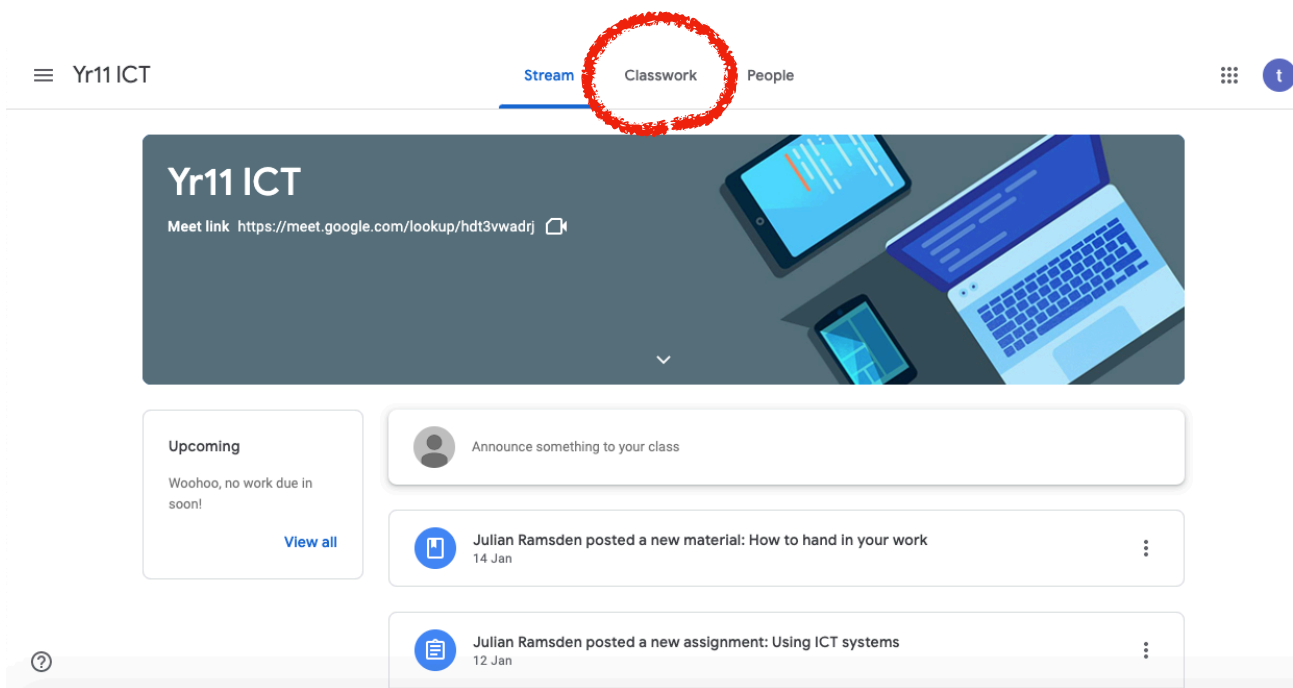

You should now be in their 'classes' area where all the classes they are enrolled in or have been invited to. If they have not already join the classes for them.

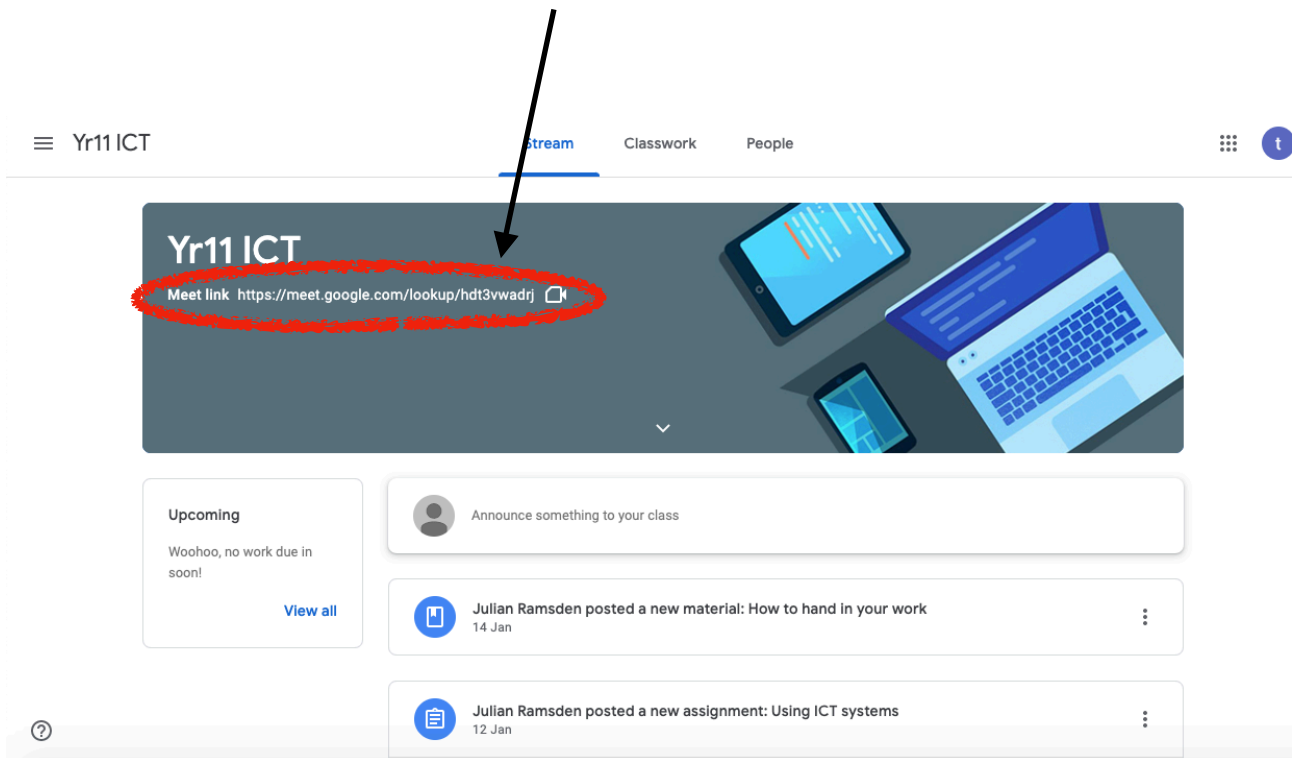

To get into any of the classes you must click on the coloured area at the top

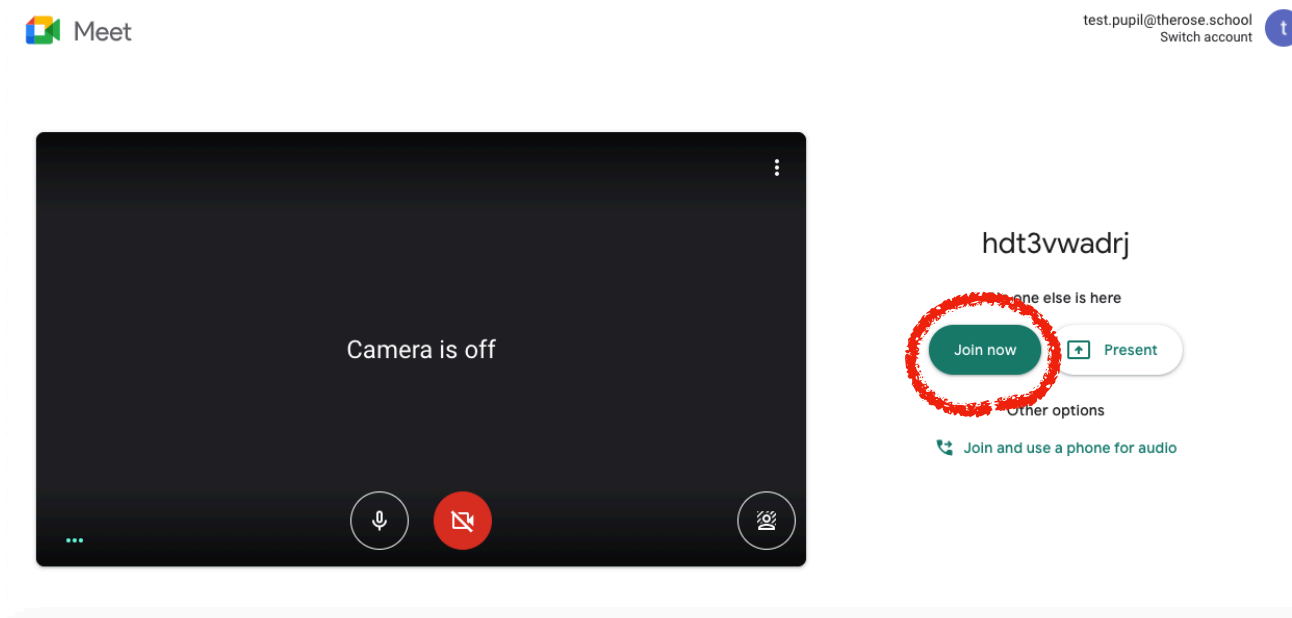

When you are in the classroom you will find any work set in 'classwork'

To join a live lesson click the 'Meet link'

From here you will be able join the live lesson

I hope this guide has been helpful. If you have any further issues logging in please contact me at

julian.ramsden@therose.school
